ABOUT NirVAYU

NirVAYU ELECTRO MECH initiated its journey in 2015 by founder and current Managing Director Mr. Raju Mudali Gowda. The company is gaining continuous success since its inception under the guidance of Mr. Raju Mudali Gowda, who has 25+ years of experience in the HVAC industry. He has so far completed 100+ HVAC projects and many more on the way.

The word "**NirVAYU**" has been derived from the Sanskrit language which in English is known as "Vacuum". The air conditioners need to be at their highest level of efficiency to work in the best possible way. That can be made possible only when the system is 100 per cent vacuumed. Therefore, the name "Nirvayu" signifies its efficiency and the air conditioning products it deals with.

NirVAYU is one of the most successful and leading Air Condition Service Contractors in Bangalore. We have our presence in industries beginning from corporate offices, commercial spaces, offices, apartments, shops, and factories to tech parks, malls, residence, villas and many more.

VISION

To be a leader in HVAC Contracting Industry working with Values, Ethics & Integrity to the fullest satisfaction of our clients by meeting world class standards.

MISSION

To be "One Stop Solution Provider" for all the HVAC needs – by delivering "Value for Money" Products & Services.

CORE VALUES

We have a strong belief in LIKE methodology. We do our best to implement and make sure that it is being followed in all the work practices at **NirVAYU**.

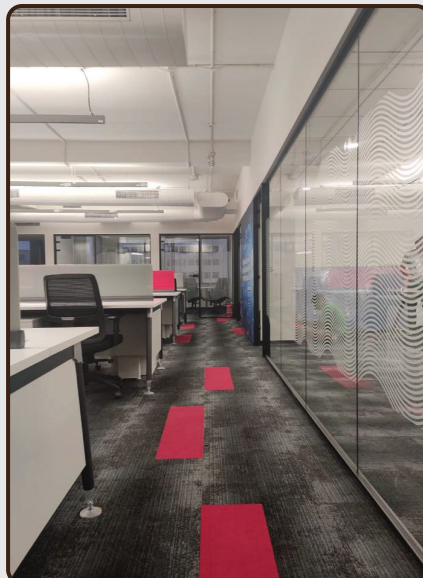

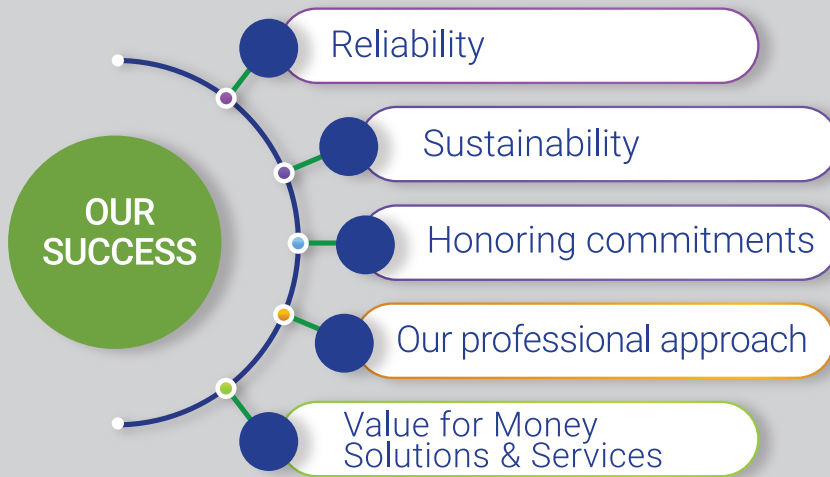

- Loyalty** :- Being faithful to commitments and obligations.
- Integrity** :- Working with strong ethical and moral principles.
- Knowledge** :- Applying thought with creative innovation and upgrading to the latest technology
- Enforcement** :- Administration of all statutory requirements.

These four things are the success pillars and principles being followed in customer delight at **NirVAYU**.

NirVAYU'S OFFERS

Projects Overview:

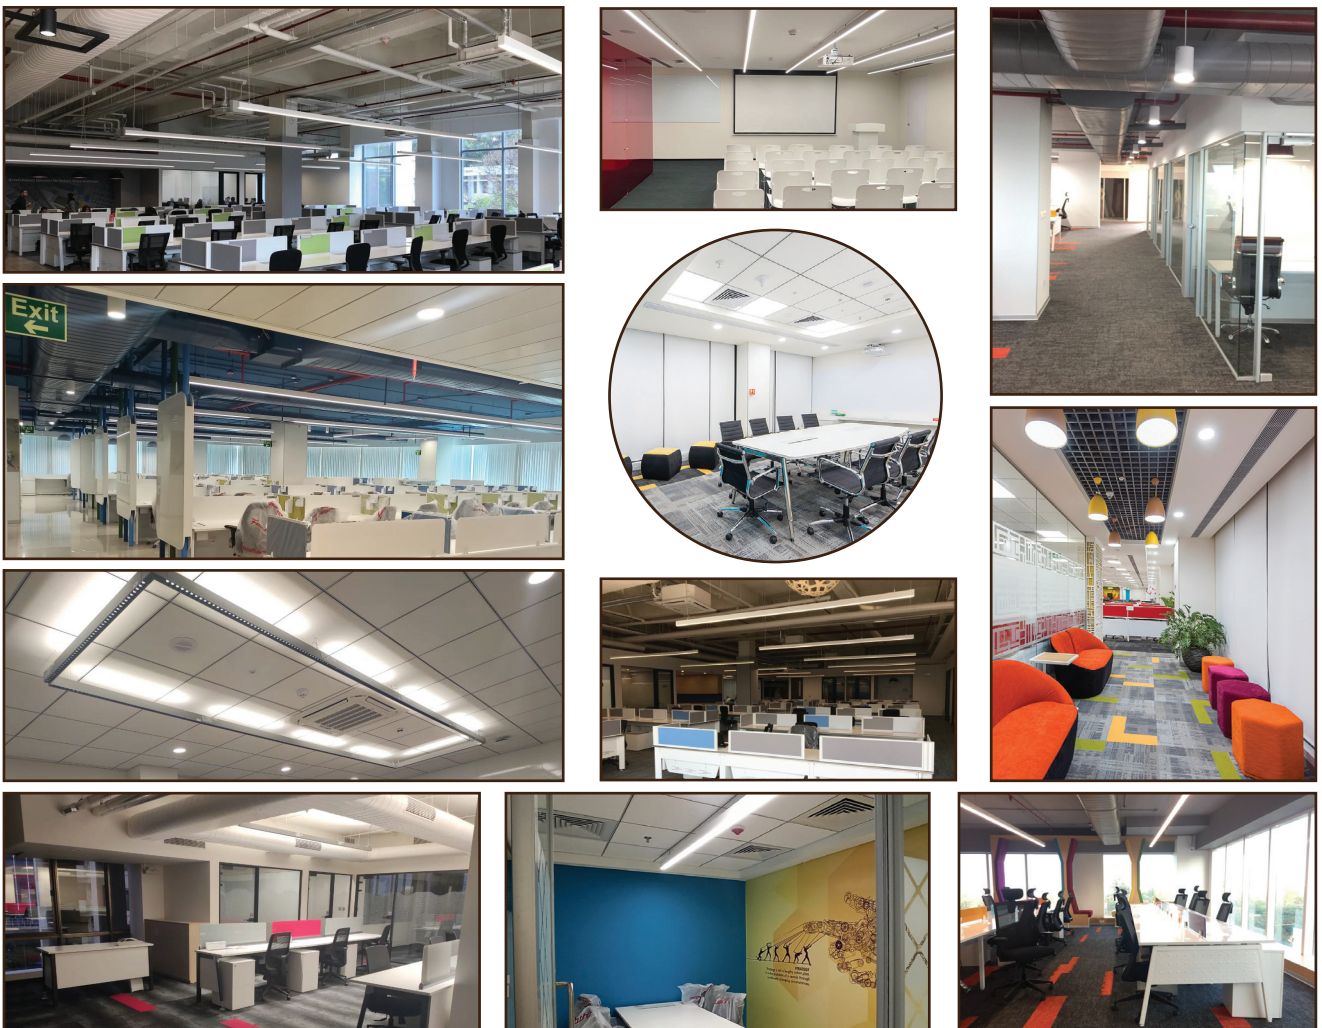

We undertake mega projects and apply PMBOK concept of Project Management Life Cycle. Every distinct project is assigned to individual Project Managers. We ensure unified integration between our back office, Project Engineers and Field Executives through right communication channels. Monitoring and review of the project is done periodically. One of our main objectives of our work is not to get into any escalation and we maintain that throughout the life cycle of the Project.

We do undertake HVAC Turnkey Projects as well Retrofit Projects too.

Maintenance & Support Services:

NirVAYU's courteous team of technicians will ensure that your units are up and running in a healthy condition. We provide support for both Warranty and AMC Preventive Maintenance Service for all the equipment starting from chillers to split units (including full manufacturer backed Warranty, Service and Repair).

We work 24 X 7 with stringent SLA (Service Level Agreements) with the minimal response time.
